

Helper Riverside Parkway

They cleaned up this area along the river and created a great place for people to walk and enjoy the river.

A place in the community where you can enjoy nature at its finest without leaving the city limits.

People use this walkway day and night; they walk, roller-blade, walk their dogs, stroll babies, and ride bikes. It is kept clean and is very peaceful and relaxing.

Ron cooper took a hobo jungle and built it into a parkway; it is just beautiful.

Places like this give people a safe place to walk, picnic, and bike. Also there are fisheries located at the walkway.
